

ANTIPOLLUTION is a member of V Group, operating in the field of environmental protection by providing integrated environmental services to companies in Greece and abroad.

Recognizing the importance of adopting Policies and Strategies aimed at ensuring the highest possible level of safety during the transportation of personnel and material resources, the company has developed and implemented a Road Traffic Safety Management System, fully compliant with the requirements of ISO 39001:2012.

This Policy applies to all company personnel, contractors, subcontractors, and external partners operating within company premises, including headquarters, facilities, projects, construction sites, and any other operational activities.

The Management of ANTIPOLLUTION is responsible for the Road Traffic Safety Policy and is committed to its implementation at all operational levels of the company. The following constitute strategic commitments of the Company's Management:

- ❖ Full compliance with all legal, legislative, regulatory, and other applicable requirements and practices governing the provision of services, company operations, and transport processes, taking into account guidance from competent authorities, new technologies, and the latest scientific data regarding activity-related risks.
- ❖ Provision of waste management services and products in full alignment with international developments in the sector and customer requirements.
- ❖ Development and implementation of specific Road Traffic Safety Strategies and Plans.
- ❖ Implementation of measures and programs to avoid and prevent road traffic safety incidents.
- ❖ Implementation of information, training, and awareness actions for employees directly involved in transport operations, always covering the road traffic safety management pillar.
- ❖ Allocation of resources for the continuous improvement of road traffic safety conditions.
- ❖ Reduction and ultimate elimination of deaths and serious injuries resulting from road traffic accidents.
- ❖ Continuous improvement of the effectiveness and performance of the Road Traffic Safety Management System.

ANTIPOLLUTION establishes indicators and objectives to monitor performance in Road Traffic Safety matters. The company's indicators and corresponding objectives are representative of its size, the type of transport activities it conducts, and the social, economic, and natural environment in which it operates. The company identifies and evaluates risks associated with its operations in order to timely detect potential situations that may hinder the achievement of its objectives and to implement appropriate management measures. To fulfill this commitment, the company has adopted a methodology for identifying applicable requirements and procedures for monitoring compliance with them.

This Policy is reviewed annually, and each version is communicated and/or made available to all interested parties.

On behalf of the Management,

Ioannis Karamplias
